This is a comprehensive Student Development Program (SDP) that focuses on fostering leadership qualities, personal growth, and overall well-being among students. The initiative is designed to support students in becoming competent, confident, and industry ready individuals. Industry leaders and recruiters have repeatedly emphasized the importance of value-added skills beyond domain knowledge. Current placement trends clearly indicate that technical expertise alone does not guarantee career success. It is the additional skills and personal development undertaken during Graduation that determine the quality of job opportunities students can access.
