A brief write-up about your Event (in about 300 words) :

For any progressive organization, it is essential to establish standardized processes and procedures. This ensures efficiency, consistency, and the right approach to operations. Additionally, it sets a higher benchmark, forming a strong foundation for institutions striving for continuous growth. Furthermore, with the implementation of binary accreditation by NAAC, assessments will be increasingly outcome-based. Therefore, it is crucial to have well-defined processes and the structured functioning of various committees. In this context, Standard Operating Procedures (SOPs) become indispensable for every higher educational institution. Our college, under the able guidance of the IQAC, has made an effort to prepare draft SoP documents for all functional working areas of the office and statutory and nonstatutory committees. This workshop will help to add value to the efforts and will help to make the draft all-inclusive and acceptable to all the HEIs in the state.
