Activity Proposal

Participation/Organization	:Organization
Event Id	:P2603505
Event Name	:Quantitative Data Analysis
Academic Year	:2025-26
Activity Type	:Workshops / Training Programmes
Reach of the Event	:Local
Mode of the Event	Offline
Date of the Event	:2026-02-18 To2026-02-18
No of Day(s)	:one day
Objective of the Event	:To equip students with fundamental knowledge and practical skills in quantitative data analysis using statistical tools. To develop students' ability to interpret quantitative findings for research and business applications.

Outcome of the Event :

Apply basic statistical techniques such as mean, median, standard deviation, correlation, and regression. Use tools like MS Excel/SPSS to organize and analyze datasets. Interpret statistical results for business decision-making.

A brief write-up about your Event (in about 300 words) :

A workshop on Quantitative Data Analysis will be conducted for TYBCom students to enhance their analytical and research skills. The primary objective will be to familiarize students with fundamental statistical concepts and tools used in business research. Participants will learn to organize, analyze, and interpret quantitative data using techniques such as mean, correlation, regression, and hypothesis testing. The workshop will also focus on practical application using tools like MS Excel for data analysis and presentation. By the end of the session, students will be able to draw meaningful conclusions from data and apply statistical insights in finance, marketing, and management decision-making.
