To
The Principal,
Vidya Prabodhini College of Commerce, Education, Computer and Management,
Alto-Parvari, Goa

Subject: Invitation for applications for research projects to be funded by Prabodhan Education Society.

Respected Sir

In the light of the celebrations to commemorate the decennial year of our college, I am pleased to inform you that the Managing Committee of Prabodhan Education Society has proposed to create a corpus to fund two research projects: one from the B.A.B.Ed. and one from the B.Com.streams, that can be taken up by the faculty members of Vidya Prabodhini College.

It is desired that this decision will promote a culture of scientific temperament and research at the highest academic level of our institution. The faculty members need to ensure that the project goals are aligned with the fulfilment of the social obligations the Society was founded to address. The financial assistance for each project has been capped at a maximum of ₹ 50,000/-.

Applications are solicited from faculty members interested in pursuing academic or field research. I request you to circulate this letter amongst your faculty members and encourage them to apply for the same.

I am positive that the creation of this opportunity will give an impetus to research at the college, and will play a key role in serving the social objectives of the Society.

Thanking you

Shri. Sanjay Walavalkar
