EVENT DESCRIPTION

This dance- drama performance is an attempt to pay tribute to the martyrs and freedom fighters of the revolution that earned our state its liberation from the tyranny of Portuguese rulers. The act begins with depicting the cultural and occupational setup of Goa followed by the interruption caused by Portuguese invasion. Along with the famous freedom struggle poems by Shri Manohar Rai Sardessai and Shri B. B. Borkar, a beautiful script is written to capture the essence and aesthetic beauty of Goan culture and to awaken the youth to tackle our social problems. This performance is a blend of Indian Classical Dance, Classical Music, Folk theater art forms and Folk music, using literature as a base to bring out various 'RASAS' to be presented before an esteemed audience.

The lecture on the topic "Metabolic Syndrome: Could Nutrition Intervention Help" was delivered as part of the mega science series programme organized by Directorate of Higher

Education and Goa State Higher Education Council, Government of Goa. The programme commenced with Dr. Varsha Ingahalli, Assistant Professor in Commerce, introducing and extending a welcome to the resource person, Ms. Varsha Naik. Dr. Ujwala, Hanjunker, Head, Department of Commerce, presented a memento to the resource person.

In her introductory remarks, the resource person foregrounded the need for awareness of the Metabolic syndrome, abbreviated as MetS, and how dietary intervention could help in dealing with the syndrome. Further, she enumerated the risk factors involved like genetic predisposition and unhealthy lifestyle that includes a diet of ultra-processed food. In the ensuing discussion, she highlighted the various conditions associated with the syndrome like CHD and hypertension. The role of international health organizations like WHO, EGID and IDF was also underscored. The diagnostic criteria used to check the various health parameters like blood glucose level was also explained.

In her core discussion, she elaborated on the dietary patterns and interventions to combat the syndrome. The need for maintaining the requisite calories, variation in diet, and adequate intake of water were listed as measures of precaution. She further recommended a treatment mode and put forth the essentials: Diet, Exercise, Education and Medicine and emphasized on the need of focusing on the first three essentials rather than taking the recourse of medicine. The various types of diet to be followed like Mediterranean diet, DASH diet (dietary approaches to stop hypertension), Low fat diet, and high protein diet along with the role of Intermittent fasting was also explained.

In the concluding section she summarized the features of the presentation and emphasized how a small change in one's diet could reap huge health benefits in combating metabolic syndrome.
