Free Yourself from Conventional Thinking

How to choose the right Graduation Course?

Some of the major points that students should factor in while deciding upon the best course for them are:

1. Self Assessment

The first thing that you must consider while deciding the graduation course is **your interest and passion** about it. Having mental clarity about, what you want to do in future and how interested are in a particular field, will go a long way in helping you decide your graduation course.

How to choose the right Graduation Course?

CAPABILITY

In the first instance, evaluate your capabilities.

- 1. What are you good at?**
- 2. What are your strengths?**
- 3. What is your aptitude?**

How to choose the right Graduation Course?

Understanding of the course

Before you decide which course to pursue, it is also important to understand what a course entail and what all does it cover?

Future Prospects

Another major important factor to consider upon deciding a college course is its future prospects.
